DR. ANWAAR AHMED

Recently the concept of governance in public universities has over shadowed the role of a creative and inspiring personality being the Vice Chancellor of the University.

In my article I would like to highlight the importance of creativity in breeding ideas and nourishing the character with in the campus of certain university by an inspiring and thought provoking leadership as the Vice Chancellor.

I would also like to highlight the glimpses of Shaikh Ayaz as poet, thinker and inspiring personality and response / acceptability of his appointment as Vice Chancellor by the students, teachers and masses of that area in particular and educational circle of the country in general.
